

Thank you San Bruno! It has been an honor serving our community on the San Bruno City Council for the last four years. I am extremely grateful for all of your support and the opportunity to improve our city for all. Progress has been made in:

balancing our budget,
creating development impact fees,
extending fiber to our cable customers,
creating a Residential Parking Permit Program,
finalizing the Downtown Streetscape Project,
designing our new Recreation and Aquatics Center,
supporting our schools with passage of Measure X.

We are a resilient community with many difficult decisions in our future. New development and revenue are important to our financial sustainability. However it must be mindfully balanced to respectfully minimize its impact to our community.

I am a dedicated, hard-working councilmember that stands shoulder-to-shoulder with various community organizations to improve San Bruno. I offer my invaluable council and construction experience. I am committed to listening to your concerns and acting on your behalf.

By working together we will make the best decisions to improve San Bruno for all. I humbly ask for your vote.
